EDUCATION

University of Texas Rio Grande Valley, ABET Accredited

GPA: 3.70

Master of Science in Computer Science

Graduated: December 2025

B.S. in Computer Engineering, Minor in Asian Studies

Graduated: December 2023 GPA: 3.71/4.0

EXPERIENCE

UTRGV College of Engineering and Computer Science

Edinburg, TX

Research Assistant - MI@UTRGV

Sep 2023 – June 2024

- Analyzed AI and reinforcement learning algorithms to support innovative, data-driven projects.
- Developed and presented a [research proposal](#) on autonomous vehicles to CS professors and students.
- Implemented reinforcement learning experiments in Python to enhance recommender system performance.

Smart Technology Research Assistant - Department of Defense I-DREAM4D Consortium

May 2021 – May 2022

- Researched multi-laser AM open systems and contributed to hardware selection and integration.
- Added features to legacy code in VS using C# and ActiveX for the machine's translation stages and galvo system.

System Analyst Support

Feb 2023 – Feb 2024, June 2024 – Dec 2025

- Developed Bash scripts and documentation to automate user account creation with secure first-login password protocols, reducing manual processing by 90%.
- Installed and updated operating systems and software for university-managed computers.
- Created network cables and verified network connections, mapped drives, and connected printers to staff computers.
- Upgraded computer systems from HDDs to SSDs, increasing performance by 2-5x and reducing downtime.

Undergraduate Assistant (Front-End) - PREM

Feb 2020 – May 2021

- Enhanced UX/UI for the bilingual Energy&U website, an Emmy-winning program, reaching 20,000+ students.
- Produced bilingual ([Spanish](#) and [English](#)) videos presenting nanofiber drug delivery systems to a varied audience with over 3.1K views.

PROJECTS & ORGANIZATIONS

UTRGV College of Engineering and Computer Science Capstone Project

Edinburg, TX

Full-Stack App Developer ([GitHub Link](#))

Aug 2022 – May 2023

- Built Android app in Java with dual API integration that showcased real-time Arduino sensor data via Bluetooth.
- Designed aesthetic and user-friendly app interface with Figma.
- Debugged and improved Arduino and Java code continuously.

Fixer Uppers Website - Database Design

Edinburg, TX

Team Lead, Full-Stack Developer ([Project Link](#))

Feb 2025 – May 2025

- Led database and system design for a job-matching web app and developed E-R model and relational schema.
- Built and deployed core features using Next.js, JavaScript, CSS, and AWS.
- Designed system flows and UI to improve usability, reliability, and user engagement.

Google Software Product Sprint

Remote

Participant, Full-Stack App Developer

May 2021 – Aug 2021

- Created a portfolio using HTML and CSS and implemented Google Sign in on an original app named Splice.
- Designed Splice using Android Studio that users use to scan text on a receipt and share expenses with other users.
- Communicated through Asana using Agile methodologies to facilitate work and ensure communication.

Tau Beta Pi Texas Nu - President, Social Media Manager, Member

Dec 2022 – Present

Rocket Launchers - Vice President, Telemetry Lead, Public Relations

Oct 2019 – May 2022

American Society of Mechanical Engineers - Secretary, Historian, IAM3D Team Member

Oct 2019 – Aug 2022

SKILLS & CERTIFICATIONS

Programming Languages & Frameworks: Python, C++, HTML, CSS, JavaScript, Java, Arduino, Front-End & Back-End Development. Exposure to: R and Ruby

Development Tools: Jupyter Notebook, Git/GitHub, React, Flutter, SQLite, Jira, Asana, Figma, Miro
